

PAST LIFE REGRESSION MASTERCLASS

The notion that we have lived many lives has been taught by spiritual teachers from the Eastern mystical traditions for millennia. Now modern medical science has evidential proof.

"Past life therapy is undoubtedly the most effective approach to help patient recover from the unfinished emotional wounds of this life."

- C. Norman Sheeley, MD, PhD. Author, Illustrated Encyclopaedia of Healing Remedies.

After several decades of clinical practice and research, surgeon, Dr Charles Tramont declares:

"Hypnotic past life regression therapy should be recognised by the enormous good it can accomplish. It is a miraculous method of healing that will ultimately assume its rightful place in modern medicine because it can no longer be referred to as unconventional."

- Charles Tramont, MD. Author, From Birth to Rebirth.

Now, in London, a personal friend and colleague of Dr Charles Tramont will teach a Masterclass on hypnotic past life regression.

During this CPD event you will learn to assess whether past life regression is appropriate for your client and their presenting condition. You will learn,

through practical experience, past life regression techniques to facilitate the recall, therapeutic management and resolution of past life memories.

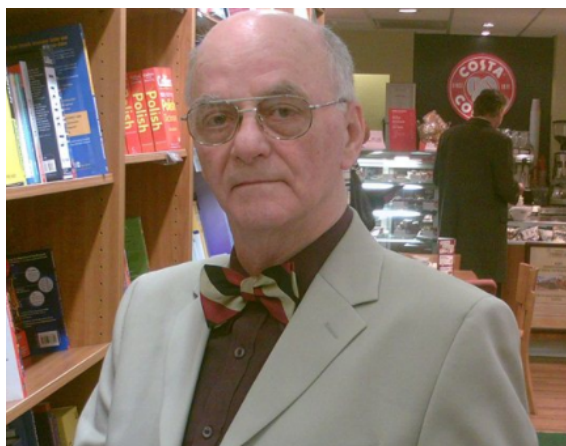

This Masterclass is for hypnotherapists interested in learning how to gain answers to the fundamental questions often asked by clients, such as:

- *Where do I come from?*
- *Why am I here?*
- *What is my life's purpose?*
- *Can knowledge of past lives heal me in this one?*

Contents of the day:

- *Assessing clients*
- *Indications and contraindications*
- *Transition techniques for past life recall*
- *Techniques for the exploration of the client's past life experiences*
- *The safe management of reactivated traumatic scenes.*
- *Means of ensuring that the client is able to integrate insights gained from regression.*
- *How to access resources, gifts or talents from a previous life and to utilise these memories in the present.*
